Credible source

Josef Mengele was born in Gunzburg, Bavaria on 16 March 1911. After studying philosophy in Munich, Mengele took his medical degree at the University of Frankfurt am Main.

A convinced Nazi, he became after 1934 a research fellow and staff member of the newly founded Institut für Erbbiologie und Rassenhygiene – Institute of Hereditary Biology and Race Research, where he specialised in the study of twins and racial pedigrees.
